Chiang Mai Journal of Science

INFORMATION FOR CONTRIBUTORS

EDITORIAL POLICY

The Chiang Mai Journal of Science is an international English language peer-reviewed journal which is published in open access electronic format 6 times a year in January, March, May, July, September and November by the Faculty of Science, Chiang Mai University. Manuscripts in most areas of science are welcomed except in areas such as agriculture, engineering and medical science which are outside the scope of the Journal. Currently, we focus on manuscripts in biology, chemistry, physics, materials science and environmental science. Papers in mathematics statistics and computer science are also included but should be of an applied nature rather than purely theoretical. Manuscripts describing experiments on humans or animals are required to provide proof that all experiments have been carried out according to the ethical regulations of the respective institutional and/or governmental authorities and this should be clearly stated in the manuscript itself. The Editor reserves the right to reject manuscripts that fail to do so.

Papers which have already been published in other journals or which are under consideration by other journals should not be submitted. Similarly, papers published here should not be submitted to other journals. Special issues can also be published by prior arrangement but are limited to not more than 2 issues per year. Manuscripts that are suspected to involve plagiarism or other types of ethical misconduct, including but not limited to duplicate publication, multiple submission or salami slicing will also be rejected. Manuscripts that have passed successfully through peer review and been accepted will be subject to an article processing fee of 300 US\$ or 10,000 Baht before they can be published.

TYPES OF MANUSCRIPT

Manuscripts may be submitted in the form of *Review Articles*, *Research Papers* or *Short Communications* and must be clearly and concisely written in English. As an approximate guide to length:

- Review Articles would not normally exceed 30 pages of double-spaced A4 text, inclusive of tables, figures and references, with a maximum of 50 references. Reviews are normally by invitation only but prospective authors are welcome to contact the Editor or appropriate Associate Editor to discuss possible contributions.
- *Research Papers* would not normally exceed 20 pages of double-spaced A4 text, similarly all-inclusive. The number of references should not exceed 30.
- *Short Communications* would not normally exceed 8 pages of double-spaced A4 text, including not more than 2 tables and 2 figures and a maximum of 10 references.

Manuscripts that exceed these limits will be returned to the author for correspondence for editing.

PREPARATION OF MANUSCRIPTS

Manuscripts submitted for publication will normally consist of the following sections: Title, Authors Names and Addresses, Abstract (including Keywords), Introduction, Materials and Methods, Results and Discussion, Conclusions, Acknowledgements (if any), and References. For format and general style, authors should refer to current issues (see also the Journal website) as a guide. Manuscripts that do not conform to these guidelines will be rejected at the submission stage. Photographs, figures and line drawings should be of optimum quality.

Only references actually cited in the main text should be included in the References section and should be cited in numerical order. Manuscripts should be typed as MSWord documents using double-spacing on A4-sized pages with justified text. Any tables and figures should follow at the end of the main text and be saved in the same document file. SI units of measurement should be used throughout.

It is strongly recommended that, where appropriate, the paper should be proof-read by a native English speaker, or at least someone proficient in the English language, before being submitted so as to avoid the possibility of rejection on language rather than scientific grounds. The Editor reserves the right to request proof of language editing.

Journal/periodical abbreviations should follow those used by the Web of Science (https://images.webofknowledge.com/images/help/WOS/A_abrvjt.html).

SUBMISSION PROCEDURE

Manuscripts should be submitted online as a single MSWord document file via the Journal website at:

http://epg.science.cmu.ac.th/ejournal/

Following submission, receipt of the manuscript will be acknowledged by a return e-mail containing a Manuscript Number which should be quoted in all subsequent correspondence.

When submitting a paper, authors are also <u>required</u> to provide the names and affiliations (including e-mail addresses) of at least 5 possible reviewers whom the authors consider to be well qualified to review the paper. However, this is not meant to imply that the paper will be sent to these reviewers. This is simply a measure designed to avoid long delays in the event that reviewers are difficult to find. Normally, the paper will be refereed by 2-3 reviewers.

In addition, authors are recommended to describe the highlights and/or novelty aspects of the submitted manuscript in a short cover letter.

REVIEW PROCEDURE

Following receipt of the manuscript, it will be first screened for its suitability for the Journal by the assigned Associate Editor. This initial screening also includes the use of "Turnitin' software for plagiarism detection. Having passed through this initial screening process, it will then be sent to a minimum of two external reviewers (double-blind system). In the event of differences of opinion amongst the reviewers regarding the merits of the manuscript, the final decision will rest with the Editor. The Journal will make every effort to inform the authors of its decision within 3 months after submission and, if accepted, to publish the manuscript within a further 4 months (including the time taken to make any revisions).

Manuscripts accepted but requiring revisions must be returned to the Journal within the timeframe specified by the handling Associate Editor highlighting the changes that have been made. Detailed responses to the reviewers' comments should also be given in a covering letter. A revised manuscript returned after the deadline has expired without giving prior notice to the handling Associate Editor will be treated as a new submission.

In the case of manuscripts considered to be unsuitable for publication, the reasons for rejection will be clearly explained. In some cases, an article submitted as a Research Paper may be recommended for acceptance as a Short Communication instead, especially where the work is of topical interest but is of limited scope and length.

Following acceptance, an electronic copy of the paper typeset as it will appear in the Journal (for final proof-reading) and a *Copyright Transfer Agreement* will be e-mailed to the corresponding author. The paper (indicating any final corrections) and the signed *Copyright Transfer Agreement* must be returned as soon as possible. Manuscripts will be published only after receiving the signed *Copyright Transfer Agreement*. Finally, following publication, an electronic copy (PDF file) of the paper can be downloaded from the Journal website free of charge.

PAYMENT

To cover processing costs and provide open access for articles which have been accepted, the Journal now charges a publication fee of 300 US\$ or 10,000 Baht. This publication fee should be transferred to the bank account shown below and details of the transfer either e-mailed to: <STSCCMU@gmail.com> and <cmjs@cmu.ac.th> or faxed to: +66 (0)53 892275.

Account Name: CENTER STSC-CMU

Account No.: 667-226327-6

Bank: SIAM COMMERCIAL BANK PLC.
Branch: CHIANG MAI UNIVERSITY BRANCH

Address: 239 Huay Kaew Rd., Amphur Muang, Chiang Mai 50200, Thailand

SWIFT CODE: SICOTHBK

COVERAGE BY INDEXING SERVICES

The Journal is covered by the following indexing services:

- Science Citation Index Expanded (also known as SciSearch®)
- Journal Citation Reports / Science Edition
- Scopus
- Biological Abstracts
- BIOSIS Previews
- Chemical Abstracts
- SciFinder Scholar
- Zentralblatt f
 ür Mathematik
- MathSciNet
- Thai Citation Index (TCI)
- ASEAN Citation Index (ACI)

JOURNAL WEBSITE / OPEN ACCESS

The **Chiang Mai Journal of Science** is an open access journal. Full papers in this and past issues are available online at the Journal website at:

http://epg.science.cmu.ac.th/ejournal/

JOURNAL IMPACT FACTOR

The Journal's 2017 Impact Factor is 0.409.

DISCLAIMER

Personal views expressed by contributors in their articles are not necessarily those of the **Chiang Mai Journal of Science** or of the Faculty of Science, Chiang Mai University.
