

Keyword Index

ScienceAsia Vol 30 (2004)

A			
accumulation	93	control system	135
actinomycetes	123	convergence analysis	183
actinophages	223	cryopreservation	293
activated sludge	351	CuO/Al ₂ O ₃	399
adaptive search radius	183	current distribution	375
adaptive tabu search	183	cyproheptadine hydrochloride	163
adsorption	149,351	D	
aerobic denitrification	351	D-Amino acid	335
air preheating	279	D-Amino acid oxidase	335
Al-Fe-(V, Si) alloys	33	D-Aspartate oxidase	335
amorphous titanium dioxide	149	decision tree induction	239
Analytic Network Process (ANP)	317	<i>Dendrobium</i>	293
arsenic	105,255	density	391
arsenic accumulation	255	determination	163
B		distribution	223
6-benzyladenine	9	dot-blot	359
6-benzyladenineimazalil thidiazuron	1	double swirling	279
<i>Babesia bovis</i>	67	drought	301
back-tracking	183	dung beetle	59
<i>Batrachospermum mahlacense</i>	313	dye degradation	149
betaine aldehyde dehydrogenase	247	dynamic simulation	135
bioavailability	211	E	
bioconcentration factor (BCF)	93	Eastern Coast of Thailand	211
biodegradable polyesters	327	ϵ -caprolactone	327
biodiversity	417	Echinoderms	417
biological control	391	<i>Echinometra</i>	75
bromophenol blue	163	eggs size	75
C		electroplating test cell	375
cadmium	93	embryonic development	75
carotenoid	247	emergent plants	105
Ce/TiO ₂ (anatase)	341	encapsulation/dehydration	293
cement	127	energy recovery	135
cement paste	127	enterocin	115
CFBC simulation	365	<i>Enterococcus faecium</i>	115
characteristics	223	F	
checklist	417	fertilization	75
chemical heat pumps	135	fractionation	211
Chiang Muan coal field	43	freshwater algae	171
chloride binding	127	freshwater red algae	313
chlorophyll	247	<i>Fusarium solani</i> ,	205
Circulating Fluidized Bed Combustor	365	G	
coconut water	1,9	gas-atomised powders	33
Comparative Molecular Field Analysis (CoMFA)	81	gas-turbine engines	279
Comparative Molecular Similarity Indices Analysis (CoMSIA)	81	Gene cloning	383
contaminated water	105	genetic distance	239

glycinebetaine	247	Northeastern Thailand	269
growth efficiency	17	Northern Thailand	43,171
H			
haplotype	239	O	
high sensitivity	67	outer membrane proteins	231
HIV-1 reverse transcriptase,	81	oxidative catalyst	341
I			
imazalil,	9	P	
immunohistochemistry	359	palynology	171
industrial burners	279	parasitism	391
ion-pair complex	163	<i>Pasteurella multocida</i>	231
ISCOMs	231	Pd adsorption	399
Isopropanol-Acetone-Hydrogen	135	<i>Penaeus monodon</i>	359
K			
<i>Klebsiella</i>	383	pharmaceuticals	163
korarima	1	phosphorus	211,255
krawan	9	photocatalyst	149
L			
Landsat image	269	phthalimide derivatives,	81
lineament	269	Phytase	383
liverwort	89	Plagioclilaceae	89
L-lactide	327	<i>Plagioclilium oppositum</i>	89
Loei	269	plane-wave expansion	157
lowland rice	301	plankton diversity	261
M			
Mae Moh coal field	43	plants	255
malachite green	351	poly(L-lactide-co-ε-caprolactone)	327
man – made lake	261	pressure controlled ventilation	191
marine incursion	43	primary forest	59
marine invertebrates	335	processing	25
mathematical model	191	proline	301
methylene blue	149	property	25
MgO/Al ₂ O ₃	399	Purification	383
micropropagation	1,9	Q	
microstructure	25,33	quantitative trait loci	205
Middle Miocene	43,171	quantum confined Stark effect	157
mineralization	269	quantum dots	157
mitochondrial DNA	67	R	
Mohler cell	375	Rama IX lake	261
monoclonal antibody	359	rapidly solidified Al-Fe-(V, Si) alloys	25
multiple-criteria decision making	317	relative water content	301
multi-segment	191	Relative Water Content (RWC)	411
N			
Na ⁺ /K ⁺ ratio	411	removal	93,105
N-acylamino acid racemase	123	Rhodophyta	313
net photosynthetic rate	17,247	Rotating Cylinder Hull cell	375
new record	89,313	S	
new species	171	salt stress	247
Newcastle disease-virosomes	231	salt tolerance screening	411
		salt tolerant index	17
		salt tolerant rice	411
		secondary forest	59
		sediment	211
		self-assembled	157
		shoot tip	293
		Shrinking Core Model	365

sibling species	75
simple sequence repeat markers,	205
sodium chloride	17
solidification	33
soybean sudden death syndrome,	205
<i>Spalangia endius</i>	391
species composition	59
specific amplification	67
spectrophotometry	163
stabilised flames	279
<i>Streptomyces</i>	123
streptomycetes	223
substrate specificity	335
subunit vaccine	231
sulfur isotope	43
survival percentage	247

T

tectonic	269
tephritid fruit fly	391
Thai fermented fish	115
Thai soil samples	223
Thailand	261,313,417
thidiazuron	9
time-dependent	127
titanium dioxide	149
titanium oxide	341
triple layer model	399
tropical area	261
tropical rain forest	59
TTC assay	293
turbidimetry	163
two-synergistic peptide bacteriocin	115

U

university selection	317
----------------------	-----

V

V/TiO ₂ (anatase)	341
variable compliance	191

W

water hyacinth (<i>Eichhornia crassipes</i>)	93
water use efficiency	17
white spot syndrome virus (WSSV)	359

Y

Y-chromosomal microsatellites	239
-------------------------------	-----

Z

zinc	93
Zingiberaceae	1
