Songklanakarín J. Sci. Technol.
Vol.29 (Suppl. 1): Thai Herbs II

A

A. hydrophila; 69-81
acute toxicity; 109-124; 125-139; 141-155
alkaloid; 39-48
analgesic; 39-48
Andrographis paniculata; 197-206
antibacterial; 11-16
antifungal; 11-16
anti-inflammatory activity; 49-57
anti-inflammatory; 59-67
antinociceptive; 59-67
antioxidants; 1-9
antipyretic; 29-38; 59-67
aqueous extract; 49-57

B

behavioral; 39-48
betong chicken; 197-206
°Brix-acid ratio; 187-196

C

C. aurantifolia; 125-139
chromatographic fingerprint; 101-107
Cinnamomum porrectum; 11-16
Cleistocalyx nervosum; 17-28
Clinacanthus nutans; 1-9
clinical trials; 83-93; 95-100
crude pectin; 187-196

D

dietary fiber; 187-196
Dioscorea membranacea; 49-57; 101-107
dioscorealide A; 101-107

dioscorealide B; 101-107
dioscoreanone; 101-107
domestic animal diseases; 167-185

E

ethanol extract; 49-57
experimental animal; 29-38
extract; 29-38; 39-48; 59-67
extracted guava leaves; 69-81

F

fancy carps; 69-81
free radicals; 1-9

G

gamma irradiation; 157-166
growth performance; 197-206
guava (*Psidium guajava*); 187-196
Gynostemma pentaphyllum; 17-28; 83-93
Gynura procumbens; 17-28

H

hemolysis; 1-9
Hibiscus sabdariffa calyces; 29-38
Houttuynia cordata; 17-28
Hyptis suaveolens; 17-28

I

immunostimulating agents; 17-28
Imperata cylindrica (Linn.) Raeusch; 141-155

J

Jiaogulan; 83-93

L

lymphocyte proliferation; 17-28

M

microorganism; 157-166

Mitragyna speciosa leaves; 39-48**N**

NK activity; 17-28

O

oil; 11-16

P

pectinase; 187-196

Phytolacca americana; 17-28*Piper nigrum* L.; 109-124*Portulaca grandiflora*; 17-28; 95-100**R**

rhizome; 49-57

S

safety; 83-93; 95-100

Smilax corbularia; 59-67

subchronic toxicity; 109-124; 125-139; 141-155

T

Thai herbs; 157-166

Tradescantia spathacea; 17-28

traditional doctors; 167-185

U

utilization of herbal medicine; 167-185

W

wisdom of the deep south of Thailand; 167-185
