Author index.....	i
Original articles	
• Use of antifungal metabolite from <i>Trichoderma virens</i> for controlling Chinese kale leaf spots caused by <i>Alternaria brassicicola</i> 1 (<i>W Intana T Suwanno and C Chamswarnng</i>)	
• Morphological study of the versatile anther group in the tribe zingibereae (Zingiberaceae) 11 (<i>C Ngamriabsakul</i>)	
• Estimation of rumen undegradable protein with <i>in situ</i> nylon bag and <i>in vitro</i> enzymatic technique in tropical concentrate feedstuffs 23 (<i>S Chumpawadee K Sommart T Vongpralub and V Pattarajinda</i>)	
• Biological and physical factors in population distribution and territorial defence of fiddler crabs, <i>Uca vocans hesperiae</i> 35 (<i>K Bunnuang K Meesawad M Jaroensutasinee and K Jaroensutasinee</i>)	
• Locations and religious factors affecting Dengue vectors in Nakhon Si Thammarat, Thailand.....47 (<i>S Wongkoon M Jaroensutasinee and K Jaroensutasinee</i>)	
• Impact of climatic factors on Dengue haemorrhagic fever incidence in southern Thailand..... 59 (<i>S Promprou M Jaroensutasinee and K Jaroensutasinee</i>)	
• Anisotropic magnetoresistance of cobalt films prepared by thermal evaporation.....71 (<i>Y Pansong and C Sirisathikul</i>)	
• Macroscopic and microscopic gradient structures of bamboo culms..... 81 (<i>S Sutnaun S Srisuwan P Jindasai B Cherdchim N Matan and B Kyokong</i>)	
• Floating circle of objects simulation with the princeton ocean model for the gulf of Thailand..... 99 (<i>C Yaiprasert K Jaroensutasinee and T Veruttipong</i>)
