

CONTENTS

Author index..... i

Original articles

- Oriented strand lumber from rubberwood residues 115
(*P Malanit B Kyokong and N Laemsak*)
- The inner area change detection in Pak Panang bay before and after the operation of the *Uthokawiphatprasit* watergate using aerial photographs and geographic information system127
(*P Prabnarong and S Thongkao*)
- Flash flooding area prediction by GOES-9 satellite data135
(*W Ruairuen K Jaroensutasinee and M Jaroensutane*)
- A colour image quantization algorithm for time-constrained applications149
(*W Kurdthongmee*)
- Software for hydrogenic atoms and orbitals visualization.....169
(*K Kittiwutthisakdi and K Kueseng*)
- Isolation and selection of anti-*Candida albicans* producing lactic acid bacteria179
(*M Lertcanawanichakul*)
- Construction of a plasmid vector for expression of bacteriocin N15-encoding gene and effect of engineered bacteria on *Enterococcus faecalis*.....189
(*M Lertcanawanichakul*)
- Marine diatom (*Chaetoceros calcitrans*) as a monospecies diet for conditioning oyster (*Crassostrea belcheri* Sowerby) broodstock201
(*P Chotipuntu*)
- Nutritional evaluation of non forage high fibrous tropical feeds for ruminant using *in vitro* gas production technique 209
(*S Chumpawadee K Sommart T Vongpralub and V Pattarajinda*)
- *In sacco* degradation characteristics of protein feed sources in Brahman-Thai native crossbred steers219
(*S Chumpawadee K Sommart T Vongpralub and V Pattarajinda*)
- Cytogenetics of stump-tailed macaque, *Macaca arctoides* (Primate, Cercopithecidae) in Thailand by conventional staining231
(*A Tanomtong S Khunsook W Kaensa and W Kongkham*)
